

A man with short dark hair, wearing a light blue button-down shirt and a beige V-neck sweater vest, is looking intently at a tablet. The tablet displays a website layout for a restaurant. The website has a blue header with the text "PRODUCTS PROMOTIONS" and "The Made Flavor". Below the header, there is a section titled "Our restaurant are the perfect place to enjoy fine and healthy food." and a section titled "From Inside" with a photo of a salad. The bottom of the tablet shows a navigation bar with the words "Apps", "Skins", and "Style".

Platform *Features*

empowerkit

Your Brand & Domain

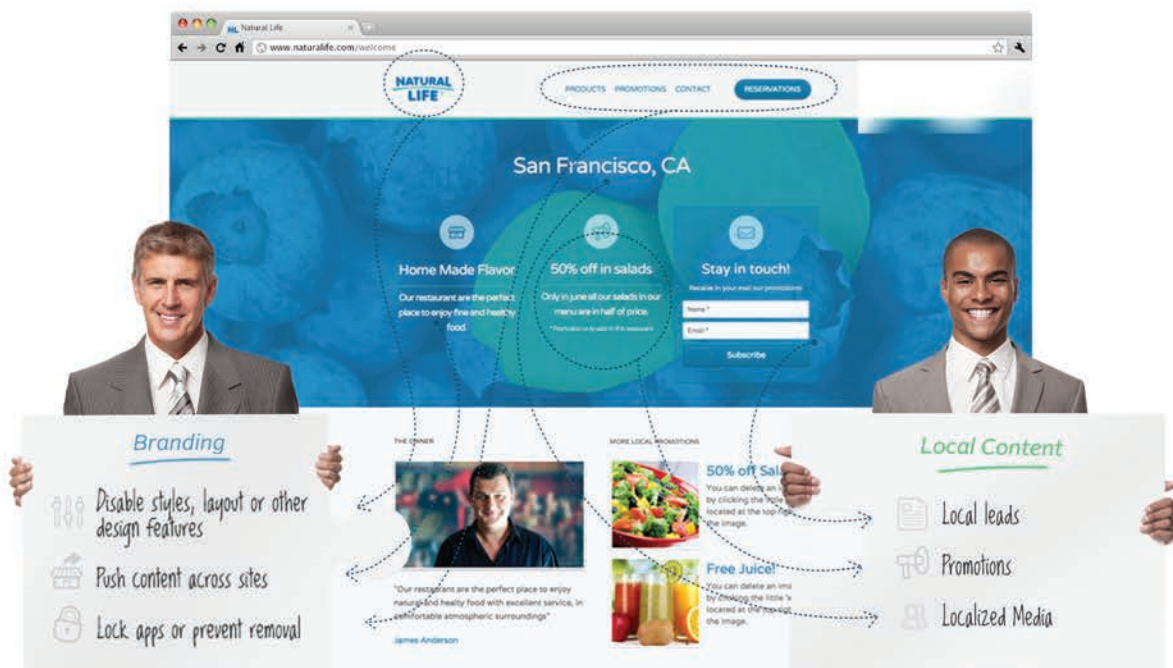

Your domain
subdomain.yourdomain.com

Branded templates & starting points

Branded welcome emails & tutorials

Control of Capabilities

You define what your partners can and cannot do!

Made for Business

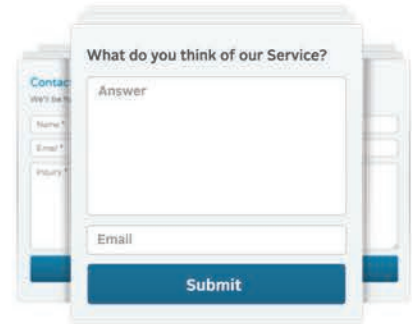

Search engine optimized

Our sites are optimized for search engines out of the box. You can take this a step further by enabling hybrid controls for more unique content as well!

Mobile optimized

Your website is automatically made to work and fit nicely within tablet and mobile devices. There is nothing to do and no need to make separate versions.

Lead generation tools

Empowerkit comes with various form apps to help partners generate leads. You can also integrate with any CRM or manage your leads within Empowerkit!

Hosted & Cared For

Constantly pushing new code

Our team is pushing new features and updates daily so you can have the absolute best experience!

Super fast sites

Speed is everything, so we built an advanced caching system that serves up your sites super quickly.

Scaled infrastructure

We have a team that constantly monitors and scales our server infrastructure, so we can grow with your needs.

Interactive Apps & Powerful Features

Lots of apps covering almost everything you can think of

We can also build custom apps to fit your specific needs

Lots of Apps

Truly Modern Interface

Easy to use for the novice, empowering for the experts

Interactive applications

Our library of applications can be easily dropped into your site and configured just the way you like them!

Drag & drop + edit in place

Editing your website is just like most of the other apps you're used to. Drag and drop anything you see on the page. Double click on anything you see to edit it!

Powerful design tools

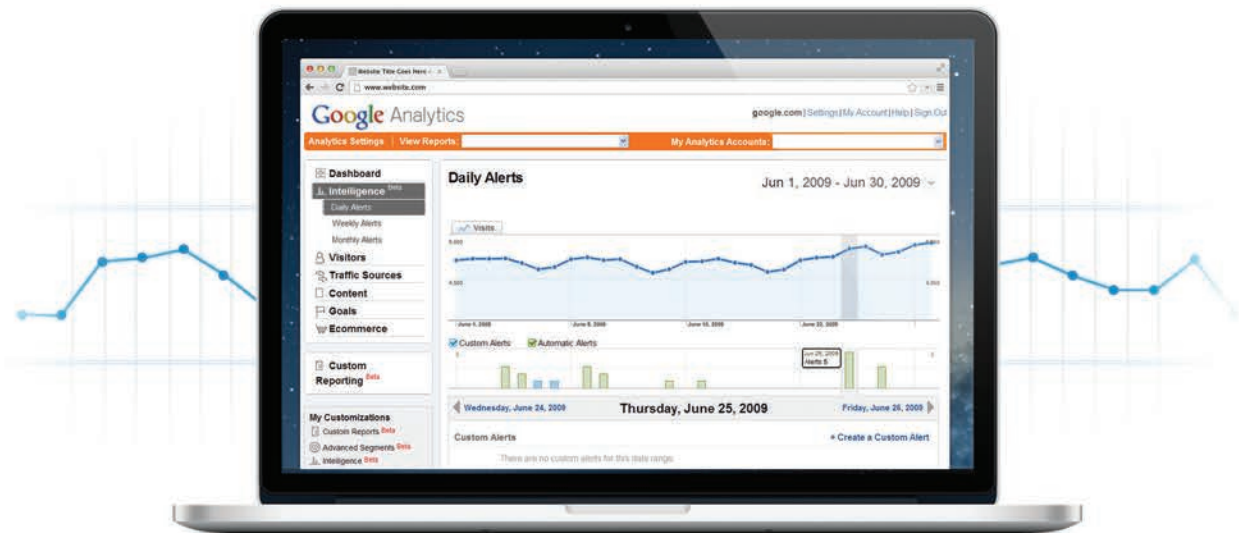

Layout builder, design shuffler and skins are just a few of the powerful design tools that allow you to create anything you can dream of.

Extremely flexible

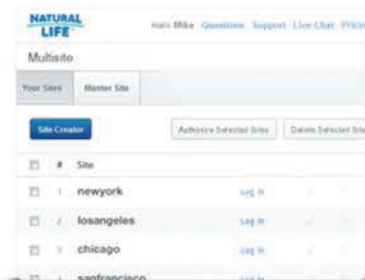

With Empowerkit you can build almost any website you can imagine using our visual tools!

Your Choice of Analytics

Integrates with your favorite analytics program!

Easy to Manage

Fast multisite management

You can create, manage, edit and login to your sites with one click!

Integrates with your workflow

You can create sites using our mass site creator, our API, or send registration forms to your partners.

Flexible billing options!

Allow us to bill your partners directly or you can bill them. We also offer subsidized billing options as well.

What's stopping you?

We've got you covered!
